

I have owned XM Radio for going on 6 months. I enjoy being able to listen to long ago classic music that I can not find anywhere on the radio, with the exception of a couple of hours on vertain days of the week. I like to be able to listen to news, sports and weather out of my regular broadcast area. I want to be informed on weather in areas where I may be traveling not waiting until I get close enough to be able to pick up the local station in the area where I am traveling to. XM is the best thing to happen to radio. With that being said I strongly oppose National Association of Broadcasters (NAB) petition 04-160!
